American Welding Society

Subject Index

Technical Papers, Items and Reports

Aircraft Construction Welding—R. M. Mock, April, pp. 32-40.
Aircraft Industry, Discussion of Welding in—July, pp. 46-48.
Aircraft Welding—Harold A. Backus, June, pp. 32-46.
Aircraft Welding—J. B. Johnson, Feb., pp. 35-55.
Aluminum Tank Welding—J. B. Johnson, Feb., pp. 35-55.
Aluminum Welding and Its Alloys—W. M. Dunlap, Jan., pp. 21-34.
Aluminum Welding in the Chemical and Process Industries—W. M. Dunlap, April, pp. 13-20.
American Bureau of Welding—By-Laws, Committees, Membership, Aims, Purposes and Its Various Activities, Aug., pp. 40-55.
American Welding Society—By-Laws, Committees, Membership, Aims, Purposes and Its Various Activities, Aug.
Atomic Hydrogen Welding—P. P. Alexander, May, pp. 48-49.
Atomic Hydrogen Welding—W. L. Warner, Sept., pp. 160-173.
Automatic Arc Welding—W. L. Warner, Dec., pp. 9-20.
Automatic Welding of Thin Sheets, Discussion of—Nov., pp. 59-66.
Automobile Body Welding with the Oxy-Acetylene Torch—J. W. Meadowcroft, Jan., pp. 14-20.
Automobile Conveyor Monorail Arc Welded—J. W. Meadowcroft, Feb., pp. 8-11.
Barge, All Welded—E. H. Ewertz, June, pp. 55-57.
Blast Valve Construction—A. F. Davis, March, pp. 36-37.
Boiler Code of A.S.M.E., Present Status of—C. W. Obert, Oct., pp. 72-75.
Boiler Welding—E. R. Fish, Dec., pp. 24-35.
Boiler Welding: Observations of European Practice—G. A. Orrok, Sept., pp. 110-113.
Carbon Arc Welding, Chemical Reactions of—G. E. Doan and E. Ekholm, Sept., pp. 130-136.
Carbon Arc Welding, Discussion of—Nov., pp. 35-41.
Chemical and Process Industries, Welding in—T. McLean Jasper, June, pp. 12-17.
Chemical and Process Industries, Welding in—A. G. Wikoff, July, pp. 78-88.
Chemical Industries, Welding of Aluminum in—W. M. Dunlap, April, pp. 13-20.
Code for Fusion Welding and Gas Cutting in Building Construction: Part A, Structural Steel, Edition of 1928—June, pp. 69-76.
Conveyor Monorail Arc Welded—J. W. Meadowcroft, Feb., pp. 8-11.
Copper and Copper Alloys Welding, Discussion of—Nov., pp. 17-21.
Copper and High Copper Alloys, Welding of—Ira T. Hook, Sept., pp. 113-129.
Cutting and Welding Steel Parts to Replace Castings—W. J. Buchanan, Sept., pp. 61-70.
Cutting and Welding of Steel Parts, Discussion of—Nov., pp. 14-17.
Cutting, Hints on Heavy—A. G. Wikoff, Jan., pp. 40-50.

Design of Joints for Welded Steel Structures—Andrew Vogel, April, pp. 68-82.
Duriron, Welding—P. D. Schenck, April, pp. 10-12.
Effect of Current on Strength of Arc Welded Joints—H. M. Boylston, A. Jenkin and J. C. Carpenter, Sept., pp. 26-47.
European Practice in Welding Boilers, Drums and Tubes—G. A. Orrok, Sept., pp. 110-113.
European Practice in Welding of Boilers, Tubes and Drums, Discussion of—Nov., pp. 66-73.
Fatigue Tests of Drums and Shells—H. F. Moore, Oct., pp. 42-52.
Frog Welding—C. Arnoldson, Feb., pp. 63-65.
Heat Treatment of Welds—Karl Kuettner and V. N. Krivobok, Dec., pp. 40-62.
Heating and Ventilating Industries, Discussion of Welding in—July, pp. 41-45.
Inspection of Structural Steel Welding—C. D. Jensen, Jan., pp. 6-14.
Metallographic Report on the Investigation of the Nature of Nitrogen Needles—P. P. Alexander, Sept., pp. 94-99.
Metallographic Report on Nitride Needles, Discussion of—Nov., pp. 31-35.
Metallographic Studies of Welds—Karl Kuettner and V. N. Krivobok, Dec., pp. 40-62.
Metallographic Study of Some Metallic Arc Welds—H. M. Boylston, A. Jenkin and J. C. Carpenter, Sept., pp. 26-47.
Metallographic Study of Arc Welds, Discussion of—Nov., pp. 41-48.
Metallurgical Aspects of Atomic Hydrogen and Other Arc Welding Processes—W. L. Warner, Sept., pp. 160-173.
Monel Metal Welding—N. B. Pilling, and T. E. Kihlgren, April, pp. 20-28.
Monel Metal Welding, Discussion of—July, pp. 63-71.
Motor Boats, Arc Welded—John Van Horne, Oct., pp. 25-27.
Nickel and Monel Metal Welding—N. B. Pilling and T. E. Kihlgren, April, pp. 20-28.
Nickel and Monel Metal Welding, Discussion of—July, pp. 63-71.
Nitrogen Needles, Investigation of—P. P. Alexander, Sept., pp. 94-99.
Nomenclature, Definitions and Symbols—Supplement to Nov. issue, pp. 1-48.
Non-Destructive Testing of Welds—E. A. Sperry, Sept., pp. 48-61.
Non-Destructive Testing of Welds, Discussion of—Nov., pp. 48-59.
Non-Destructive Testing of Welds by Means of the Stethoscope and X-Ray—A. B. Kinzel, C. O. Burgess and A. R. Lytle, Sept., pp. 71-78.
Ornamental Iron Welding—P. B. Covey, May, pp. 37-42.
Physics of the Arc—A. Hilpert, Dec., pp. 21-23.
Pipe, Large Receiver Arc Welded—J. G. Smeby, Feb., pp. 6-7.
Pipe Line for Gas is Arc Welded—A. F. Davis, Oct., pp. 67-71.
Pipe Line Joints for Oil and Gas Arc Welded—H. C. Price, Oct., pp. 28-41.
Pipe Line Welding, Discussion of—Nov., pp. 73-83.
Pipe Line Welding for Distribution of Manufactured Gas—C. M. Hendry, June, pp. 46-55.
Pipe Line Welding in the Field—W. R. Ost, Sept., pp. 100-110.
Pipe Welding: 200 Mile Line—B. S. Havens, May, p. 20.
Plumbing, Heating and Ventilating Industries, Welding in—S. E. Dibble, July, pp. 88-93.
Pressure Vessels, Fatigue Tests of—H. F. Moore, Oct., pp. 42-52.
Pressure Vessel Tests of Welds for Ductility and Tensile Strength; with discussion—J. C. Lincoln, July, pp. 50-63.
Pressure Vessel Welding, T. McLean Jasper, June, pp. 12-17.
Pressure Vessel Welding: Foreign Practice in Welding of Boilers, Tubes and Drums, Discussion of—Nov., pp. 66-73.
Pressure Vessel Welding: Observations of European Practice—G. A. Orrok, Sept., pp. 110-113.
Pressure Vessel Welding for High Pressures—P. R. Hawthorne, March, pp. 38-49.
Pressure Vessel Welding for High Temperatures, Discussion of—July, pp. 71-77.
Producing All-Steel Automobile Bodies With Oxy-Acetylene—J. W. Meadowcroft, Jan., pp. 14-20.
Production Welding—A. F. Davis, Feb., pp. 12-34.

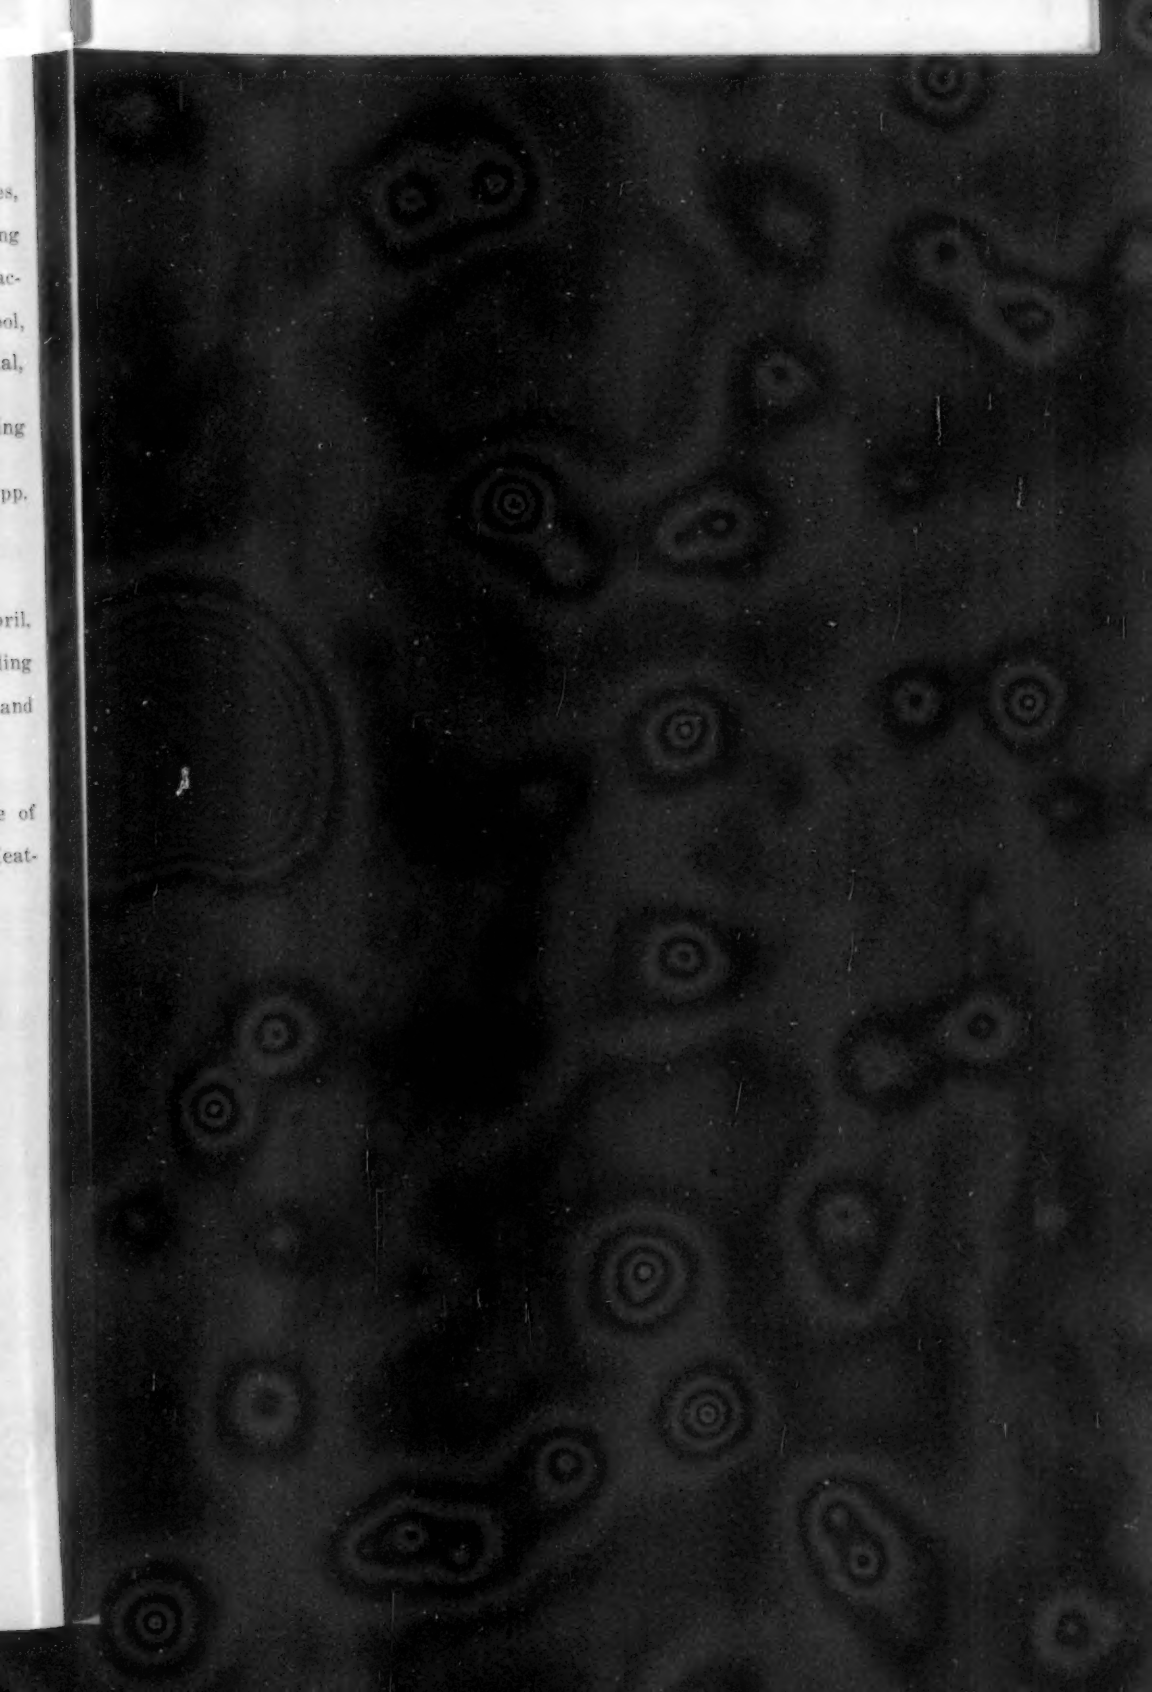
Qualification of Welders for Pressure Piping, Tanks and Vessels—H. H. Moss, Feb., pp. 55-62.
Rail Joint Welding of Main Line Track by Thermit Process—J. H. Deppeler, June, pp. 58-68.
Repair Welding in Maintenance of Steel Mill Equipment—J. N. Wilson, March, pp. 28-36.
Repair Welding in the Automobile Industry—J. W. Meadowcroft, Jan., pp. 14-20.
Replacing Castings: The Effect on Design of the Use of Welding in the Manufacture of Electric Machinery—H. G. Reist, Sept., pp. 137-151.
Replacing Castings by Welded Steel Parts—A. F. Davis, Feb., pp. 12-34.
Replacing Castings by Welded Steel Parts, Discussion of—Nov., pp. 6-14.
Resistance Welding—H. A. Woofter, May, pp. 44-48.
Resistance Welding: Electrodes for—F. E. Elge, Oct., pp. 63-66.
Resistance Welding of Pipe and Tubing for Boilers, Heating, Refrigeration and Other Uses—H. A. Woofter, Oct., pp. 8-25.
Resistance Welding of Tubes and Pipes, Discussion of—Nov., pp. 83-85.
Resistance Welds, Testing of—J. W. Meadowcroft, May, pp. 7-10.
Ship Welding—An All Welded Barge—E. H. Ewertz, June, pp. 55-57.
Specifications for Welding Steel Buildings by Electricity—F. P. McKibben, May, pp. 28-35.
Steel Mill Welding, Maintenance of Equipment—J. N. Wilson, March, pp. 28-36.
Strength of Butt Welds—G. Lobo, Jr., April, pp. 53-67.
Stress-Strain Characteristics of Welded Joints—J. H. Smith, Sept., pp. 79-94.
Structural Steel Welding and Fabrication of Ornamental Iron—P. B. Covey, May, pp. 37-42.
Structural Steel Welding: Arc Welded Steel Construction Used in Florida Packing Houses—A. F. Davis, May, pp. 42-43.
Structural Steel Welding Code for the American Welding Society—June, pp. 69-76.
Structural Steel Welding Committee Test Report of Pilot Tests Conducted at the University of Toronto—Peter Gillespie, C. A. Hughes, R. B. Jackson and J. H. Fox, March, pp. 9-27.
Structural Steel Welding: Design of Joints—Andrew Vogel, April, pp. 68-82.
Structural Steel Welding: Detailing of Welded Steel Buildings—E. C. Brown, May, pp. 16-20.
Structural Steel Welding, Discussion—G. D. Fish, May, pp. 26-27.
Structural Steel Welding, Discussion: "Design of Joints for Welded Steel Structures"—July, pp. 33-41.
Structural Steel Welding: Hospital Addition Erected Silently—A. F. Davis, May, pp. 11-15.
Structural Steel Welding, Inspection of—C. D. Jensen, Jan., pp. 6-14.
Structural Steel Welding: Large Building Completely Oxy-Acetylene Welded—H. H. Moss, Oct., pp. 53-63.
Structural Steel Welding Specifications for Buildings—F. P. McKibben, May, pp. 28-35.
Structural Steel Welding: Stress-Strain Characteristics of Welded Joints—J. Hammond Smith, Sept., pp. 79-94.
Structural Steel Welding: Tests of I Beams—W. J. Krefeld, Jan., pp. 35-39.
Structural Steel Welding: Weld Test of Heavy Column Joints Shows Good Results—May, pp. 35-36.
Structural Welding from the Standpoint of Building Departments—G. F. Emery, May, pp. 21-26.
Structural Welding of Large Girders—A. W. Lewis, Dec., pp. 35-39.
Testing Resistance Welds—J. W. Meadowcroft, May, pp. 7-10.
Testing Welds—F. G. Tatnall, Sept., pp. 152-159.
Testing Welds, Discussion of—Nov., pp. 21-30.
Tests of Arc Welded Joints—H. M. Boylston, A. Jenkin and J. C. Carpenter, Sept., pp. 26-47.
Tests of Butt Welds, Discussion of—July, pp. 20-33.
Tests of Welds Conducted at Watertown Arsenal—J. B. Rose, Sept., pp. 6-26.

Tests of Welded I Beams—W. J. Krefeld, Jan., pp. 35-39.
Tests of Welds for Tensile Strength and Ductility; with discussion—J. C. Lincoln, July, pp. 50-63.
Tests Results of Butt Welds—G. Lobo, April, pp. 53-67.
Tests Results of Pilot Tests for Structural Steel Welding Committee—Peter Gillespie, C. A. Hughes, R. B. Jackson and J. H. Fox, March, pp. 9-27.
Thermit Welding of Rail Joints for Main Line Tracks of Steam Railroads—J. H. Deppeler, June, pp. 58-68.
Thermit Welding of Rail Joints for Main Line Tracks, Discussion of—July, pp. 48-50.
Training and Management of Welding Operators for Pressure Piping, Tanks and Vessels—H. H. Moss, Feb., pp. 55-62.
Training Welders—L. S. Thurston, April, pp. 49-52.
Training Welders at Dunwoody Institute—M. Reed Bass, April, pp. 28-31.
Training Welders: Discussion of papers presented at Annual Meeting—July, pp. 10-19.
Training Welders: How to Organize and Operate an Industrial Welding School—J. C. Lincoln, June, pp. 17-19.
Training Welders: How to Organize and Operate an Industrial Welding School—R. K. Rardall, April, pp. 41-44.
Training Welders: How to Organize and Operate an Industrial Welding School—F. E. Rogers, April, pp. 44-48.
Training Welders: How to Organize and Operate an Industrial Welding School N. E. Wagner, June, pp. 20-23.
Training Welders: Organizing and Operating an Industrial Welding School—C. E. Conway, June, pp. 28-31.
Training Welders: Organizing and Operating an Industrial Welding School—R. B. Lincoln, June, pp. 77-82.
Training Welders: Organization and Management of an Industrial Welding School—F. E. Sellman, June, pp. 23-28.
Watertown Arsenal Welding—Major J. B. Rose, Sept., pp. 6-26.
Welding of Frogs by the Havana Electric Railway Company—C. Arnoldson, Feb., pp. 63-65.
Welding in the Steel Mill as Applied to Maintenance of Equipment—J. N. Wilson, March, pp. 28-36.
Welding Vessels for High Pressures—P. R. Hawthorne, March, pp. 38-49.
X-Ray Tests of Welds—A. B. Kinzel, C. O. Burgess and A. R. Lytle, Sept., pp. 71-78.
X-Ray Tests of Welds—Major J. B. Rose, Sept., pp. 6-26.

AUTHOR'S INDEX, VOL. 8, 1929

ALEXANDER, P. P.—Preliminary Report of the Investigation of the Nature of Nitrogen Needles, Sept., pp. 94-99.
Recent Developments in Atomic Hydrogen Welding, May, pp. 48-49.
AMERICAN BUREAU OF WELDING REPORT—Pilot Tests Conducted for the Structural Steel Welding Committee of the A.B.W. at the University of Toronto, 1927-28, P. Gillespie, C. A. Hughes, K. B. Jackson and J. H. Fox, March, pp. 9-27.
A Metallographic Study of Some Arc Welds, H. M. Boylston, A. Jenkin and J. C. Carpenter, Sept., pp. 26-47.
Stress-Strain Characteristics of Welded Joints, J. H. Smith, Sept., pp. 79-94.
Preliminary Report of the Investigation of the Nature of Nitrogen Needles, P. P. Alexander, Sept., pp. 94-99.
Chemical Reactions of the Carbon Arc, G. E. Doan and E. Ekholm, Sept., pp. 130-136.
AMERICAN WELDING SOCIETY—Code for Fusion Welding and Gas Cutting in Building Construction, Part A—Structural Steel Edition of 1928, June, pp. 69-76.
Report on Nomenclature, Definitions and Symbols, Supplement to November issue, pp. 1-48.

ARNOLDSON, C.—Welding of Frogs by the Havana Electric Railway Company, Feb., pp. 63-65.
BACKUS, HAROLD A.—Welding in Aircraft, June, pp. 32-46.
BASS, M. REED.—Training Welders at Dunwoody Institute, April, pp. 28-31.
BOYLSTON, H. M.—A Metallographic Study of Some Metallic Arc Welds, Sept., pp. 26-47.
BROWN, E. C.—Detailing of Welded Steel Buildings, May, pp. 16-20.
BUCHANAN, W. J.—Cutting and Welding Steel Parts to Replace Castings, Sept., pp. 61-70.
BURGESS, C. O.—Non-Destructive Testing of Welds by Means of the Stethoscope and X-Ray, Sept., pp. 71-78,
CANDY, A. M.—Discussion of Paper on "Design of Joints for Welded Steel Structures," July, pp. 34-37.
CARD, H. S.—Discussion of Paper "Organization and Management of an Industrial Welding School," July, pp. 17-19.
CARPENTER, J. C.—A Metallographic Study of Some Metallic Arc Welds, Sept., pp. 26-47.
CONWAY, C. E.—Organizing and Operating an Industrial Welding School, June, pp. 28-31.
COVEY, PAUL B.—Abstract of a Paper "The Application of Electric Welding to the Fabrication of Structural Steel and Ornamental Iron," May, pp. 37-42.
DANFORTH, G. H.—Discussion of Paper "Design of Joints for Welded Steel Structures," July, pp. 37-39.
DAVIS, A. F.—Arc-Welded Steel Construction Used in Florida Packing Houses, May, pp. 42-43.
Hospital Addition Erected Silently, May, pp. 11-15.
Large Gas Line is Arc Welded, Oct., pp. 67-71.
Simplified Blast Valve Construction, March, pp. 36-37.
The Application of Arc Welding in Production Manufacturing, Feb., pp. 12-34.
DEPPELER, J. H.—Thermit Welding of Rail Joints for Main Line Tracks of Steam Railroads, June, pp. 58-68.
DIBBLE, S. E.—Welding in the Plumbing, Heating and Ventilating Industries, July, pp. 88-93.
Discussion—ANNUAL MEETING PAPERS, July, pp. 10-77.
Fall Meeting Papers, Nov., pp. 6-85.
DOAN, G. E.—Chemical Reactions of the Carbon Arc, Sept., pp. 130-136.
DUNLAP, W. M.—Abstract of Paper on "Welded Aluminum in the Chemical and Process Industries," April, pp. 13-20.
The Welding of Aluminum and Its Alloys, Jan., pp. 21-34.
EKHOLM, E.—Chemical Reactions of the Carbon Arc, Sept., pp. 130-136.
ELGE, F. E.—Electrodes for Electric Resistance Welding, Oct., pp. 63-66.
EMERY, G. F.—Structural Welding from the Standpoint of Building Departments, May, pp. 21-26.
EWERTZ, E. H.—All Welded Barge, June, pp. 55-57.
FISH, E. R.—Welded Boilers, Dec., pp. 24-35.
FISH, G. D.—Discussion of G. F. Emery's Paper on "Structural Welding from the Standpoint of Building Departments," May, pp. 26-27.
FOX, J. H.—Report on Pilot Tests Conducted for the Structural Steel Welding Committee of the American Bureau of Welding at the University of Toronto, 1927-28, March, pp. 9-27.
GILLESPIE, P.—Report on Pilot Tests Conducted for the Structural Steel Welding Committee of the American Bureau of Welding at the University of Toronto, 1927-28, March, pp. 9-27.
HAVENS, B. S.—A 200-Mile Welded Pipe Line, May, p. 20.
HAWTHORNE, P. R.—Welding Vessels for High Pressures, March, pp. 38-49.
HENDRY, C. M.—High Pressure Distribution of Manufactured Gas by the Aid of Welded Pipe Lines, June, pp. 46-55.
HILPERT, A.—Material Transference in the Welding Arc, Dec., pp. 21-23.
HOOK, IRA T.—Welding of Copper and High Copper Alloys, Sept., pp. 113-129.

HUGHES, C. A.—Report on Pilot Tests Conducted for the Structural Steel Welding Committee of the American Bureau of Welding at the University of Toronto, 1927-28, March, pp. 9-27.
JACKSON, K. B.—Report on Pilot Tests Conducted for the Structural Steel Welding Committee of the American Bureau of Welding at the University of Toronto, 1927-28, March, pp. 9-27.
JASPER, T. McLEAN.—Autogenous Welding Serving the Chemical and Process Industries, June, pp. 12-17.
JENKIN, A.—A Metallographic Study of Some Metallic Arc Welds, Sept., pp. 26-47.
JENSEN, CYRIL D.—Inspection of Structural Steel Welding, Jan., pp. 6-14.
JOHNSON, J. B.—Oxy-Acetylene Welding in the Aircraft Industry, Feb., pp. 35-55.
KIHLGREN, T. E.—The Production of Ductile Welds in Nickel and Monel Metal, April, pp. 20-28.
KINZEL, A. B.—Non-Destructive Testing of Welds by Means of the Stethoscope and X-Ray, Sept., pp. 71-78.
KREFELD, W. J.—Report of Comparative Transverse Bending Tests on Welded 20 in. I Beams for the Electric Arc Cutting and Welding Company, Jan., pp. 35-39.
KRIVOBOK, V. N.—A Contribution to the Study of Influence on Welding Conditions and Subsequent Heat Treatment on the Structure of the Weld, Dec., pp. 40-62.
KUETTNER, KARL.—A Contribution to the Study of Influence on Welding Conditions and Subsequent Heat Treatment on the Structure of the Weld, Dec., pp. 40-62.
LEWIS, A. W.—Structural Welding Scores Success on Large Western Project, Dec., pp. 35-39.
LINCOLN, J. C.—How to Organize and Operate an Industrial Welding School, June, pp. 17-19.
Discussion Paper on "Ductility and Tensile Strength of Welds for Pressure Vessels," July, pp. 50-54.
LINCOLN, R. B.—Organizing and Operating an Industrial Welding School, June, pp. 77-82.
LOBO, G., Jr.—Strength of Butt Welds, April, pp. 53-67.
LYTLE, A. R.—Non-Destructive Testing of Welds by Means of the Stethoscope and X-Ray, Sept., pp. 71-78.
MALE, MILTON.—Discussion of paper "Strength of Butt Welds," July, pp. 26-32.
McKIBBEN, F. P.—Specifications for Welding Steel Buildings by Electricity, May, pp. 28-35.
MEADOWCROFT, J. W.—Producing All-Steel Automobile Bodies with Oxy-Acetylene, Jan., pp. 14-20.
Testing Resistance Welds, May, pp. 7-10.
The Construction of an Over-Head Monorail Conveyor by Use of the Arc Welding Process, Feb., pp. 8-11.
MOCK, R. M.—Welding in Aircraft Construction, April, pp. 32-40.
MOORE, H. F.—Fatigue Tests on Drums and Shells, Oct., pp. 42-52.
MOSS, H. H.—Large Steel Building Completely Oxy-Acetylene Welded, Oct., pp. 53-63.
Training and Management of Welding Operators for Pressure Piping, Tanks and Vessels, Feb., pp. 55-62.
OBERT, C. W.—Present Status of Welding in the A.S.M.E. Boiler Code, Oct., pp. 72-75.
ORROK, G. A.—Observations on European Practice in Welding Boilers, Drums and Tubes, Sept., pp. 110-113.
OST, W. R.—Oxy-Acetylene Welding of Pipe Lines in the Field, Sept., pp. 100-110.
OWENS, J. W.—Discussion of paper "Organization and Management of an Industrial Welding School," July, pp. 15-16.
PILLING, N. B.—The Production of Ductile Welds in Nickel and Monel Metal, April, pp. 20-28.
Discussion paper on "Production of Ductile Welds in Nickel and Monel Metal," July, pp. 63-68.


PRICE, H. C.—Electric Welding of Field Joints of Oil and Gas Pipe Lines, Oct., pp. 28-41.
RANDALL, R. K.—How to Organize and Operate an Industrial Welding School, April, pp. 41-44.
REIST, H. G.—The Effect on Design of the Use of Welding in the Manufacture of Electric Machinery, Sept., pp. 137-151.
ROGERS, F. E.—How to Organize and Operate an Industrial Welding School, April, pp. 44-48.
ROSE, J. B.—What is Being Done with Welding at Watertown Arsenal, Sept., pp. 6-26.
SCHENCK, P. D.—Welding Duriron, April, pp. 10-12.
SELLMAN, F. E.—Organization and Management of an Industrial Welding School, June, pp. 23-28.
SMEBY, J. G.—Large Receiver Pipe Arc Welded, Feb., pp. 6-7.
SMITH, J. H.—Stress-Strain Characteristics of Welded Joints, Sept., pp. 79-94.
SPERRY, E. A.—Non-Destructive Testing of Welds, Sept., pp. 48-61.
TATNALL, F. G.—How to Test Welds, Sept., pp. 152-159.
THURSTON, L. S.—Training Welders, April, pp. 49-52.
VAN HORNE, JOHN.—Arc Welded Steel Motor Boats, Oct., pp. 25-27.
VOGEL, ANDREW.—Design of Joints for Welded Steel Structures, April, pp. 68-82.
WAGNER, N. E.—How to Organize and Operate an Industrial Welding School, June, pp. 20-23.
WARNER, W. L.—Some Metallurgical Aspects of Atomic Hydrogen and Other Arc Welding Processes, Sept., pp. 160-173.
Automatic Arc Welding, Dec., pp. 9-20.
